| | | | | ^The 1994-97 O.E. 13" Valeo clutch set can replace the 14" Spicer set in applications where there is a dual drilled flywheel. These kits are designed for the standard model Kodiak. These vehicles are often equipped with optional engin/transmission configurations therefore the kit contents should always be compared to the clutch coming out of the vehicle prior to installation. | | N/A | N/A | N/A | N/A | N/A | N/A | N/A | N/A | N/A | N/A | (N057HD) is avail | N/A | N/A | N/A |
